Track Thought(s):

According to Webster's Dictionary a volunteer is: one who enters into or offers himself for a service of his own free will. Or my definition is: one who will give freely of their time to participate in an activity they enjoy and generally not complain, an unpaid position which brings a sense of accomplishment to the one who is involved.

Through the years the role of a volunteer has changed dramatically. Today, without volunteers, many organizations or businesses would not survive. We have been recognized and complimented for our unwavering dedication and unselfishness. We have also been abused by some who do not understand the meaning of being a volunteer or who are only volunteering for the glory they perceive to obtain.

But through it all we still remain dedicated, sincere and ready to help whenever necessary. Lets keep up the good work!
