Virgin Turnworker

I never knew 6:30 am came up so soon. Jeff and I rushed to get ready; for the both of us it was going to be a day we'd never forget. Eager to get out to the track, I had to keep telling Jeff to slow down. After we hit Mission we stopped off at Mc Donalds for my usual "Race Day" morning coffee. So at the track around 8:15 we went to the worker meeting. Listening to the "God " of the Driver Training, Mikko, we found out that we were on turn 5 with Ann, Roger and George. So off we went to start out the rainy day.

Once we got to the turn we met two new people just like us. A former ballet star, named George, and Roger went over what all the flags meant and then told us about the "Buddy System." The cars were put on course at 9:00 and we got to test out what we just learned. After the first session Roger and George taught us the hand signals.....Now those are confusing! One of the signals that Roger taught us was the "I have to go to the bathroom right now!" signal. It consisted of you being crouched over, holding your mid-section and pointing your finger to the ground. Fortunately we didn't have to use these, except the bathroom signal. Time went on; the rain kept falling, and we alternated on using the flags.

Lunch came around at 11:30 and the other two new guys left. " Maybe they couldn't handle the pressure of working beside two naturals like us!!!" Jeff and I went to Mc Donalds and there we saw George, Sandy and Bernie. We got on the topic about Formula 1 and the new Mc Laren street car that just came out. I then warned them that I was the new editor and they congratulated me on getting the job. At that point they all decided to watch what they would say around me! "I don't know why! Do you think it was something I said???"

Back at our turn a 12:15 we started getting ready for the next group. By this point we were soaked to the bone and frozen stiff. We were having so much fun though Jeff and I decided to ignore it. As the cars started coming out the rain began to come down harder. We had three observers on our corner, one of whom was John Boyko. The car which John was observing, a new red BMW, came around our turn and took the line too wide. As he came around our corner he took out our pylon and went thru a puddle, soaking John thoroughly and Ann just as much. It was sad but everyone couldn't help laughing. When Mr.BMW came around again, all John could do was to shake his fist at him in humor.

The afternoon went on and the rain tapered off and at points we even saw sunshine and blue sky. Jeff and I left around 4:00, just a little early. Happy to get undercover and get some heat on us we started our journey home.

At the end of such a fun-filled day we decided that the next time.....We'd come more prepared; We'd have "BUCKETS!"
